Subject: RE: Technical Memos on Chemicals in the WV Spill

Also, I am on the AWWA committee that chooses what talks go into WQTC. I think I saw 8-10 abstracts that had something to do with the MCHM spill. I don't know what will be accepted yet, but there is some interesting work looking at the adherence of the stuff to different pipes.

Jeff,

Thanks for the link to the paper on the Crypto outbreak.

In case you haven't seen them yet, two papers were posted to the WV TAP site. One is a literature review of the health effects associated with the spill chemicals, the second reports the results of a panel study on the odor threshold for MCHM.

Thanks,

Steve
